

## INTRODUCING NEW TERMINAL

**Bunkering  
Oil Terminals  
Port and Marine Facilities**

**VISION GLOBAL TERMINAL NEW TANK RESERVOIR FARM IN BANDAR ABBAS, SHAHID RAJAEI PORT**

# About us **Tank Farm**

- Vision Global Terminal (“VGT”) is a private “port services and bunkering” company in Iran, providing a complete range of transporting, storing, loading and discharging services for oil products, as well as bunkering operations since 2007.
- VGT is the largest provider of loading and discharging services in Khalij Fars Port, with 4 under management jetties, effectively operating 36% of the total L&D operation in Khalij Fars Port.
- VGT operates 2 other jetties in Shahid Rajaei Port, and one jetty in Khalij Fars special economic zone. With these total 7 jetties under operation, VGT in total operates 63% of total oil products loadings in Shahid Rajaei and Khalij Fars port.
- As the market leader, VGT currently holds 37% market share of Iran’s Bunkering operations. During 2021, VGT provided more than 0.5 million metric tons of fuel oil to passing vessels in Persian Gulf.
- With 87,480 cubic meters in-place capacity, VGT’s tank farm allows refineries and trading companies to store their oil products to manage their operations efficiently. (market share in domestic commercial oil products storage: 12%)
- With a massive investment project to develop a 950,000 cubic meters tank farm, VGT is on the road to become the largest private sector oil terminal in Iran.

# Existing Facilities **Tank Farm**

Location	43,500 m2 in Khalij Fars Special Zone
Contract terms	BOT – Build operate transfer 30 years
Total capacity	87 480 metric tons

Tank details	
Q-ty	Storage capacity of each tank
3	11,720 metric tons Tanks
4	5,970 metric tons Tanks
8	2,930 metric tons Tanks
8	2,500 metric tons Tanks

# Our Services and Facilities

Oil Terminals

Railway Fueling Stations

Loading and Discharge Services

Shunting Yard

Port Reception Facilities

Road Gas Stations

Bunkering

Bitumen Production (coming soon)

Oil Product Transportation (pipelines)

# Our services **Tank Farm**

We provide our customers with the following services on a 365/24/7 basis:

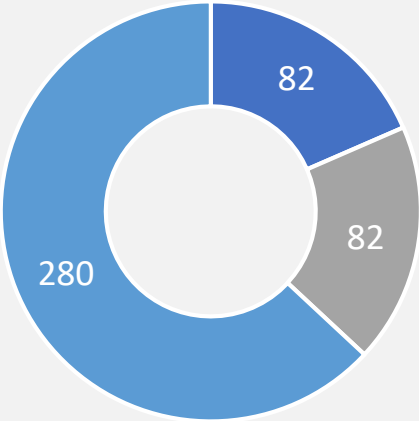

- Short & long term commercial storage
- Strategic Storage
- Make bulk
- Operate and maintain terminals
- Value added services like blending
- Pipeline Connectivity
- FOB services
- Shipping Services

# Our advantages **Tank Farm**

- ❑ Our storage facility situated in Bandar Abbas on the Persian Gulf which has a potential choke point in the global oil supply chain.
- ❑ From this strategic vantage point, we will significantly enhances the world's energy transit security.
- ❑ From Bandar Abbas our customer will get easy access to markets in South Asia, the Far East and Africa as well as land and sea access to producers in the Middle East.
- ❑ Our storage facility is both a crucial element in the next generation of Persian Gulf's diversified infrastructure and a become a strong link in the Indian Ocean's supply chain.

# Facilities **jetty services**

Name	Location	Max. Draft (Meters)	Loading vessel capacity (DWT)
Jetty #50	Persian Gulf Port	7.5	10,000
Jetty #51	Persian Gulf Port	7.5	5,000
Jetty #53	Persian Gulf Port	7.5	7,500
Jetty #3	Shahid Rajaee Port	11.3	35,000
Jetty #4	Shahid Rajaee Port	13.0	65,000
Foolad Jetty	Persian Gulf Mining and Metal Industries Special Economic Zone	13.5	100,000

# Facilities Jetty 3 (Capacity 35,000 Tons)

# Facilities Jetty 4 (Capacity 65,000 Tons)

# Facilities Shunting Yard Railway services

# Facilities Shunting Yard Railway services

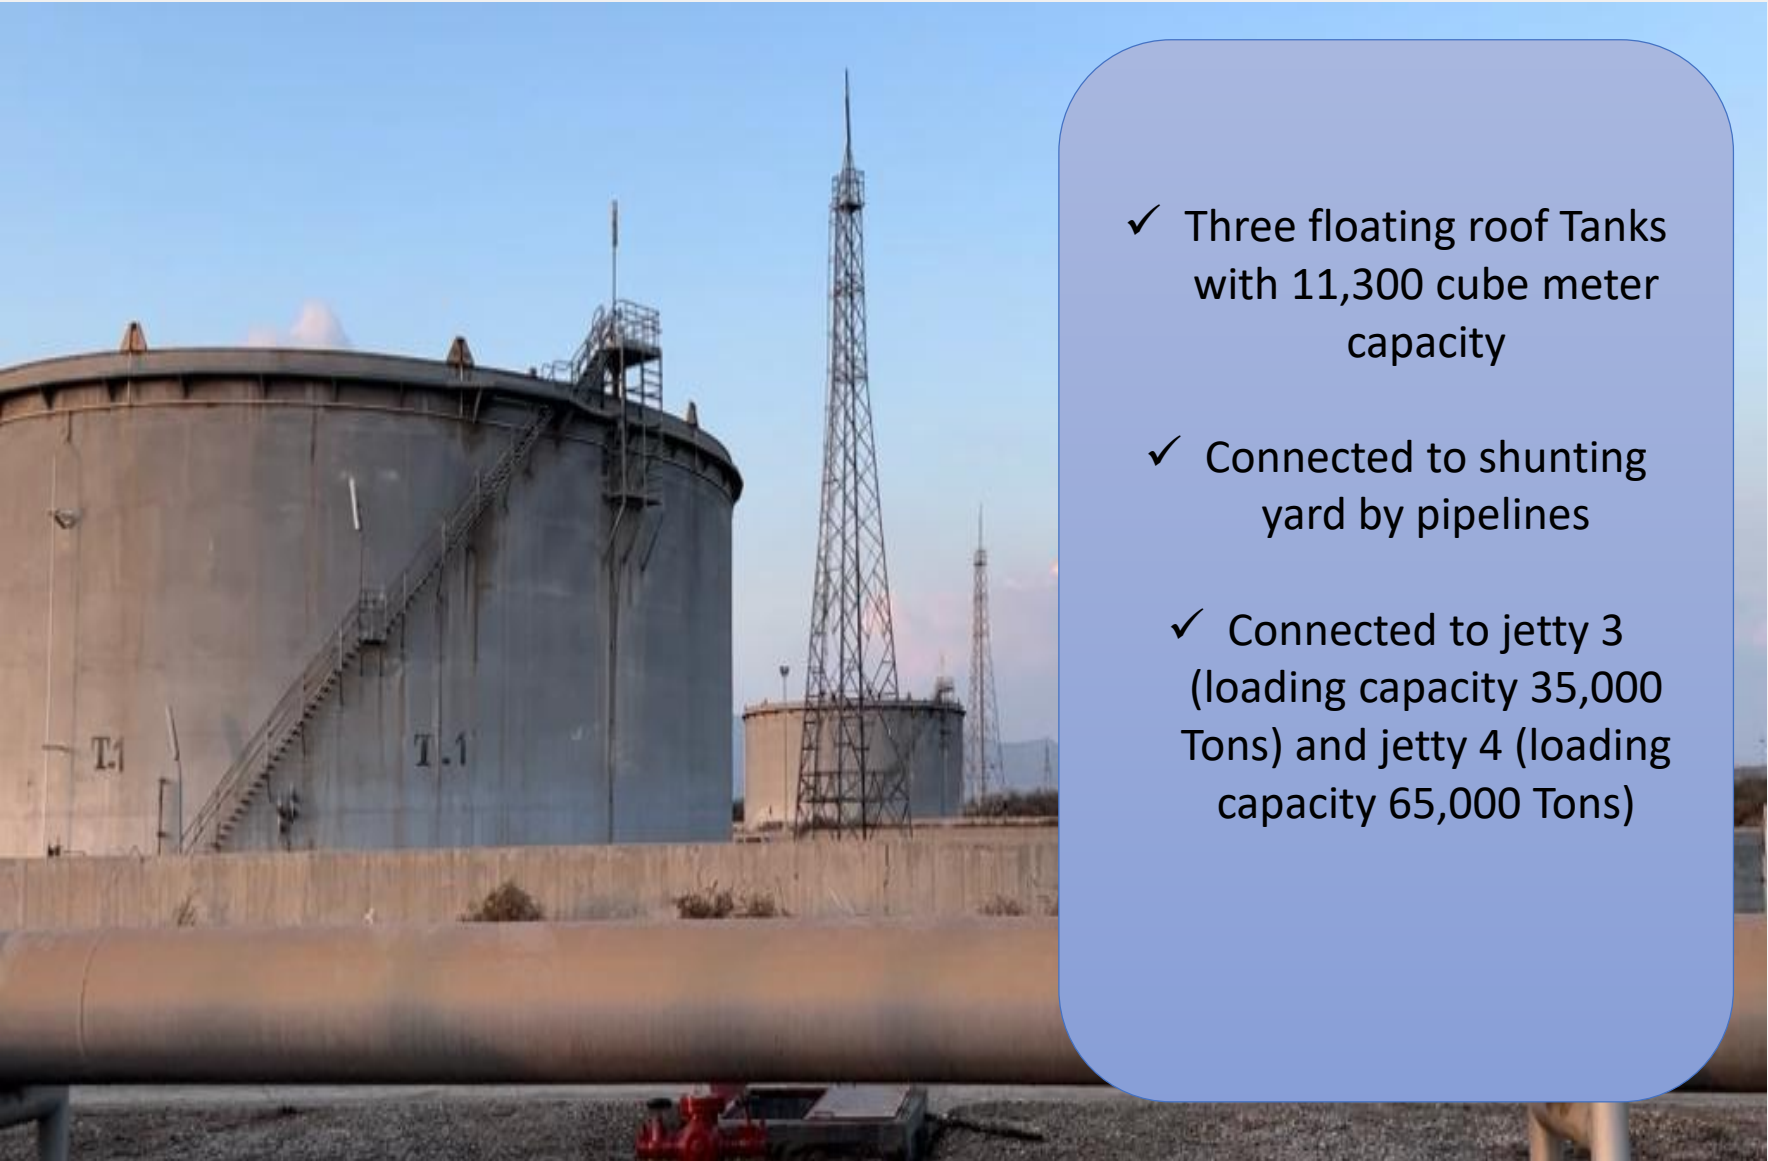

- ✓ Infrastructure for discharging 22 rail tank wagons of petroleum products simultaneously
- ✓ Ability to expand up to 44 wagons per day.
- ✓ Annual Capacity of unloading: 1.5 million tons
- ✓ Connected to the 33,900 cubic meter coastal Tanks of the Khonsorkh site through pipelines and trucks.

# Facilities **Khonsorkh site (capacity :33,900 Cube Meter)**

# Facilities **Khonsorkh site (capacity :33,900 Cube Meter)**

- ✓ Three floating roof Tanks with 11,300 cube meter capacity
- ✓ Connected to shunting yard by pipelines
- ✓ Connected to jetty 3 (loading capacity 35,000 Tons) and jetty 4 (loading capacity 65,000 Tons)

# Facilities (unified chain of services from railways to vessels)

Floating Roof

# New terminal history **Tank Farm**

**2014**

Signing a 35-years investment contract with PMO for developing a 950k m<sup>3</sup> tank farm in Rajae port as well as connecting pipelines and berth. (Investment value about USD 125 millions).

This makes the largest tank storage in Iran, with a complete ring of storage, transfer, and cargo capabilities

Total area of facilities	<b>25,200 Sq. Meter</b>
Total length of berth	<b>300 meter</b>
Unloading capacity per day	<b>36,000 Tons</b>

# Tank Farm Expansion **Services**

## Oil Terminals Development Project – Phase I

Tank Type	Product Type	Number of Tanks	Capacity (m <sup>3</sup> )	Total Capacity
Fixed Roof	Heavy Oil Products	3	40,000	120,000
		9	5,000	45,000
Floating Roof	Light Oil Products	2	40,000	80,000
		2	20,000	40,000
		6	10,000	60,000
		9	5,000	45,000
<b>Total</b>				<b>390,000</b>

The development project will add 950,000 m<sup>3</sup> capacity to Tank farm in three phases. The details of Phase I (Total of 390,000 m<sup>3</sup>) is presented above.

# Implementation Progress

No.	Type of Activity	Progress (%)
1	Engineering	70.48%
2	Purchasing & Equipment	74.11%
3	Construction	66.19%
Cumulative progress of the entire first phase		70.88%
